

FREE ABS WITH NAKED SUZUKI BANDIT 1250A

20th May, 2009

FREE ABS WITH NAKED SUZUKI BANDIT 1250A!

Suzuki will effectively give customers a free upgrade to the ABS-equipped model of its popular naked Bandit 1250 until the end of June, thanks to a generous \$500* CashBack offer.

Every new, ABS-equipped naked Suzuki Bandit 1250A purchased between 20 May 2009 and 30 June 2009, inclusive, will come with \$500* CashBack, making it the same price as the non-ABS Suzuki Bandit 1250.

The naked Bandit 1250A returns to the roots of the Suzuki Bandit, originally a naked motorcycle when introduced in 1996, and is part of Suzuki's class-leading street bike range.

Featuring ABS braking, the naked Bandit 1250A combines a powerful, fuel-injected, big-bore engine with Suzuki's latest technology, in a classically striking package which is equally at home in suburbia or on the highway.

The new CashBack offer accompanies Suzuki's existing 'Big Bore Bonus' Givi promotion, offering a free Givi top box across the entire Bandit range, which also ends on 30 June 2009.

For further information and campaign details on the 2009 naked Suzuki Bandit 1250A, interested customers should visit their local Suzuki dealer, who can be found through the Dealer Locator on www.suzuki.com.au.

* CashBack value includes GST
